# Van Phu Real Estate Development Joint Stock Company

## REPORT OF MANAGEMENT

Management of Van Phu Real Estate Development Joint Stock Company ("the Company") is pleased to present this report and the interim separate financial statements of the Company for the three-month period ended 30 September 2026.

### MANAGEMENT'S RESPONSIBILITY IN RESPECT OF THE INTERIM SEPARATE FINANCIAL STATEMENTS

Management is responsible for the interim separate financial statements of each financial period which give a true and fair view of the interim separate financial position of the Company, and of the interim separate results of its operations and its interim separate cash flows for the period. In preparing those interim separate financial statements, management is required to:

- ▶ select suitable accounting policies and then apply them consistently;
- ▶ make judgements and estimates that are reasonable and prudent;
- ▶ state whether applicable accounting standards have been followed, subject to any material departures disclosed and explained in the interim separate financial statements; and
- ▶ prepare the interim separate financial statements on the going concern basis unless it is inappropriate to presume that the Company will continue its business.

Management is responsible for ensuring that proper accounting records are kept which disclose, with reasonable accuracy at any time, the interim separate financial position of the Company and to ensure that the accounting records comply with the applied accounting system. It is also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Management confirmed that it has complied with the above requirements in preparing the accompanying interim separate financial statements.

### STATEMENT BY MANAGEMENT

Management does hereby state that, in his opinion, the accompanying interim separate financial statements give a true and fair view of the interim separate financial position of the Company as at 30 September 2026, and of the interim separate results of its operations and its interim separate cash flows for the three-month period then ended in accordance with the Vietnamese Accounting Standards, Vietnamese Enterprise Accounting System and the statutory requirements relevant to the preparation and presentation of interim separate financial statements.

The Company has subsidiaries as disclosed in the interim separate financial statements. The Company has prepared these interim separate financial statements to meet the prevailing requirements in relation to disclosure of information, specifically the Circular No. 96/2020/TT-BTC on disclosure of information on the securities market issued by the Ministry of Finance on 16 November 2020. In addition, as required by these regulations, the Company has prepared the interim consolidated financial statements of the Company and its subsidiaries for the three-month period ended 30 September 2026 ("the interim consolidated financial statements") dated 30 October 2026.

Users of the interim separate financial statements should read them together with the said interim consolidated financial statements in order to obtain full information on the interim consolidated financial position, interim consolidated results of operations and interim consolidated cash flows of the Company and its subsidiaries.

Đo Thị Thanh Phương  
Deputy General Director

Hanoi, Vietnam

NOTES TO THE INTERIM SEPARATE FINANCIAL STATEMENTS  
as at 30 September 2026 and for the three-month period then ended

**1. CORPORATE INFORMATION**

Van Phu Real Estate Development Joint Stock Company ("the Company") is a joint stock company which was established in accordance with the first Business Registration Certificate No. 0102702590 dated 12 March 2008. The Company also received its subsequent amended Enterprise Registration Certificates, with the latest being the 30th amendment being granted by Hanoi Department of Finance on 29 September 2026.

The current principal activities of the Company are investment consulting, construction, real estate development and providing accommodation services.

The Company's head office is located at No. 104 Thai Trinh Street, Dong Da Ward, Hanoi, Vietnam.

The Company's normal course of business cycle of real estate business starts at the time of application for investment certificate, commencement of site clearance and construction and ends at the time of completion. Thus, the Company's normal course of business cycle of real estate business is from 12 to 36 months.

The Company's normal course of business cycle for other business activities is 12 months.

The total number of the Company's employees as at 30 September 2026 is 301 (31 December 2025: 305).

As at 30 September 2026, the Company has 3 indirectly held subsidiaries (as at 31 December 2025: 3 indirectly held subsidiaries). Detailed information on these indirectly held subsidiaries including the Company's equity interest and voting rights, is as follows:

| No | Name of subsidiary                          | Ownership interest (%) | Voting rights (%) | Address                                                                                              | Principle activities   |
|----|---------------------------------------------|------------------------|-------------------|------------------------------------------------------------------------------------------------------|------------------------|
| 1  | Union Success Viet Nam Joint Stock Company  | 94.49%                 | 98.39%            | Km0+541.95, Provincial Road No. 359C, Xanh Soi Residential Quarter, Thuy Nguyen Ward, Hai Phong City | Real estate business   |
| 2  | Son Thang Trading & Service Limited Company | 89%                    | 99%               | No. 42 Quang Trung Street, Dong Hoi Ward, Quang Tri Province                                         | Accommodation services |
| 3  | Van Phu Hospitality Joint Stock Company     | 90%                    | 90%               | No. 104 Thai Thinh Street, Dong Da Ward, Hanoi                                                       | Accommodation services |

The equity interest is different from the voting rights because the Company controls these subsidiaries indirectly through another subsidiary.

NOTES TO THE INTERIM SEPARATE FINANCIAL STATEMENTS (continued)  
as at 30 September 2026 and for the three-month period then ended

**1. CORPORATE INFORMATION** (continued)

In addition, the Company has associates and joint ventures as described in Note 16.2.

**2. BASIS OF PREPARATION**

**2.1 Purpose of preparing the interim separate financial statements**

The Company has subsidiaries as disclosed in Note 1 and Note 16.1. The Company has prepared these interim separate financial statements to meet the prevailing requirements in relation to disclosure of information, specifically the Circular No. 96/2020/TT-BTC on disclosure of information on the securities market issued by the Ministry of Finance on 16 November 2020. In addition, as required by these regulations, the Company has prepared the interim consolidated financial statements of the Company and its subsidiaries for the three-month period ended 30 September 2026 ("the interim consolidated financial statements") dated 30 October 2026 .

Users of the interim separate financial statements should read them together with the said interim consolidated financial statements in order to obtain full information on the interim consolidated financial position, interim consolidated results of operations and interim consolidated cash flows of the Company and its subsidiaries.

**2.2 Accounting standards and system**

The interim separate financial statements of the Company, which are expressed in Vietnam dong ("VND"), are prepared in accordance with the Vietnamese Enterprise Accounting System and Vietnamese Accounting Standard No. 27 - Interim Financial Reporting and other Vietnamese Accounting Standards issued by the Ministry of Finance as per:

Decision No. 149/2001/QĐ-BTC dated 31 December 2001 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series 1);

Decision No. 165/2002/QĐ-BTC dated 31 December 2002 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 2);

Decision No. 234/2003/QĐ-BTC dated 30 December 2003 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 3);

Decision No. 12/2005/QĐ-BTC dated 15 February 2005 on the Issuance and Promulgation of Six Vietnamese Accounting Standards (Series 4); and

Decision No. 100/2005/QĐ-BTC dated 28 December 2005 on the Issuance and Promulgation of Four Vietnamese Accounting Standards (Series 5).

Accordingly, the accompanying interim separate financial statements, including their utilisation are not designed for those who are not informed about Vietnam's accounting principles, procedures and practices and furthermore are not intended to present the interim separate financial position, interim separate results of operations and interim separate cash flows in accordance with accounting principles and practices generally accepted in countries other than Vietnam.

**2.3 Applied accounting documentation system**

The Company's applied accounting documentation system is general journal.

**2.4 Fiscal year**

The Company's fiscal year starts on 1 January and ends on 31 December.

NOTES TO THE INTERIM SEPARATE FINANCIAL STATEMENTS (continued)  
as at 30 September 2026 and for the three-month period then ended

**2. BASIS OF PREPARATION (continued)**

**2.5 Accounting currency**

The interim separate financial statements are prepared in VND which is also the Company's accounting currency.

**2.6 New Accounting Regulation Adopted**

On 27 October 2025, the Ministry of Finance issued Circular No. 99/2025/TT-BTC providing guidance on the Corporate Accounting Regime ("Circular 99"), replacing Circular No. 200/2014/TT-BTC dated 22 December 2014 and other relevant regulations. Circular 99 takes effect from 1 January 2026 and applies to enterprises with financial years beginning on or after 1 January 2026.

The Company has applied Circular 99 starting from the interim separate financial statements for the three-month period ended 31 March 2026.

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

**3.1 Cash and cash equivalents**

Cash and cash equivalents comprise cash on hand, cash at banks and short-term, highly liquid investments with an original maturity of not more than three months that are readily convertible into known amounts of cash and that are subject to an insignificant risk of change in value.

**3.2 Inventories**

Inventories are stated at the lower of cost incurred in bringing each product to its present location and condition, and net realisable value.

The periodic method is used to record raw materials, tools and supplies which cost of purchase are valued on a weighted average basis.

*Inventory property*

Property acquired or being constructed for sale in the ordinary course of business, rather than to be held for rental or capital appreciation, is held as inventory property and is measured at the lower of cost and net realisable value.

Cost includes:

- ▶ Freehold and leasehold rights for land;
- ▶ Amounts paid to contractors for construction; and
- ▶ Borrowing costs, planning and design costs, costs of site preparation, professional fees for legal services, property transfer taxes, construction overheads and other related costs.

Net realisable value is the estimated selling price in the ordinary course of the business, based on market prices at the reporting date and discounted for the time value of money if material, less costs to completion and the estimated costs of sale.

NOTES TO THE INTERIM SEPARATE FINANCIAL STATEMENTS (continued)  
as at 30 September 2026 and for the three-month period then ended

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

The cost of inventory property recognised in profit or loss on disposal is determined with reference to the specific costs incurred on the property sold and an allocation of any non-specific costs based on appropriate basis.

*Provision for obsolete inventories*

An inventory provision is created for the estimated loss arising due to the impairment of value (through diminution, damage, obsolescence, etc.) of raw materials, finished goods, and other inventories owned by the Company, based on appropriate evidence of impairment available at the interim balance sheet date.

Increases or decreases to the provision balance are recorded into the cost of goods sold account in the interim separate income statement.

**3.3 Receivables**

Receivables are presented in the interim separate financial statements at the carrying amounts due from customers and other debtors, after provision for doubtful debts.

The provision for doubtful debts represents amounts of outstanding receivables at the interim balance sheet date which are doubtful of being recovered. Increases or decreases to the provision balance are recorded as general and administrative expense in the interim separate income statement.

**3.4 Tangible fixed assets**

Tangible fixed assets are stated at cost less accumulated depreciation.

The cost of a tangible fixed asset comprises of its purchase price and any directly attributable costs of bringing the tangible fixed asset to working condition for its intended use.

Expenditures for additions, improvements and renewals are added to the carrying amount of the assets and expenditures for maintenance and repairs are charged to the interim separate income statement as incurred.

When tangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the interim separate income statement.

**3.5 Leased assets**

The determination of whether an arrangement is, or contains a lease is based on the substance of the arrangement at inception date and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset and the arrangement conveys a right to use the asset.

A lease is classified as a finance lease whenever the terms of the lease transfer substantially all the risks and rewards of ownership of the asset to the lessee. All other leases are classified as operating leases.

*Where the Company is the lessee*

Rentals under operating leases are charged to the interim separate income statement on a straight-line basis over the lease term.

NOTES TO THE INTERIM SEPARATE FINANCIAL STATEMENTS (continued)  
as at 30 September 2026 and for the three-month period then ended

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

*Where the Company is the lessor*

Lease income is recognised in the interim separate income statement on a straight-line basis over the lease term.

**3.6 Intangible fixed assets**

Intangible fixed assets are stated at cost less accumulated amortisation.

The cost of an intangible fixed asset comprises of its purchase price and any directly attributable costs of preparing the intangible fixed asset for its intended use.

Expenditures for additions, improvements are added to the carrying amount of the assets and other expenditures are charged to the interim separate income statement as incurred.

When intangible fixed assets are sold or retired, any gain or loss resulting from their disposal (the difference between the net disposal proceeds and the carrying amount) is included in the interim separate income statement.

**3.7 Depreciation and amortisation**

Depreciation of tangible fixed assets and amortisation of intangible fixed assets are calculated on a straight-line basis over the estimated useful life of each asset as follows:

|                         |             |
|-------------------------|-------------|
| Building and structures | 46 years    |
| Machinery and equipment | 8 years     |
| Means of transportation | 6 years     |
| Office equipment        | 3 - 6 years |
| Computer software       | 3 years     |
| Others                  | 8 years     |

**3.8 Investment properties**

Investment properties are stated at cost including transaction costs less accumulated depreciation and amortisation. Investment properties held for capital appreciation are not depreciated/amortised but subject to impairment review.

Subsequent expenditure relating to an investment property that has already been recognised is added to the net book value of the investment property when it is probable that future economic benefits, in excess of the originally assessed standard of performance of the existing investment property, will flow to the Company.

Depreciation and amortisation of investment properties are calculated on a straight-line basis over the estimated useful life of each asset as follows:

|                         |          |
|-------------------------|----------|
| Buildings, structures   | 36 years |
| Machinery and equipment | 15 years |

Investment properties are derecognised when either they have been disposed of or when the investment properties are permanently withdrawn from use and no future economic benefit is expected from its disposal. The difference between the net disposal proceeds and the carrying amount of the assets is recognised in the separate interim income statement in the period of retirement or disposal.

NOTES TO THE INTERIM SEPARATE FINANCIAL STATEMENTS (continued)  
as at 30 September 2026 and for the three-month period then ended

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

Transfers are made to investment properties when, and only when, there is a change in use, evidenced by ending of owner-occupation, commencement of an operating lease to another party or ending of construction or development. Transfers are made from investment properties when, and only when, there is change in use, evidenced by commencement of owner-occupation or commencement of development with a view to sale. The transfer from investment property to owner-occupied property or inventories does not change the cost or the carrying value of the property for subsequent accounting at the date of change in use.

**3.9 Borrowing cost**

Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing costs are recorded as expense during the period in which they incurred, except for borrowing costs that are directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalised as part of the cost of the respective asset.

**3.10 Prepaid expenses**

Prepaid expenses are reported as short-term or long-term prepaid expenses on the interim statement of financial position and amortised over the period for which the amounts are paid or the period in which economic benefits are generated in relation to these expenses.

Short-term prepaid expenses include brokerage costs for real estate sales and other prepaid expenses that bring future economic benefits for less than one business cycle.

Long-term prepaid expenses include pre-operation expenditure, tools and supplies, prepaid land rental and other prepaid expenses that bring future economic benefits for more than one year.

**3.11 Investments**

*Investments in subsidiaries*

Investments in subsidiaries over which the Company has control are carried at cost.

Distributions from accumulated net profits of the subsidiaries arising subsequent to the date of acquisition are recognised in the interim separate income statement. Distributions from sources other than from such profits are considered a recovery of investment and are deducted to the cost of the investment.

*Investments in associates*

Investments in associates over which the Company has significant influence are carried at cost.

Distributions from accumulated net profits of the associates arising subsequent to the date of acquisition are recognised in the interim separate income statement. Distributions from sources other than from such profits are considered a recovery of investment and are deducted to the cost of the investment.

*Investments in joint ventures*

Investments in joint ventures over which the Company has joint control are carried at cost.

NOTES TO THE INTERIM SEPARATE FINANCIAL STATEMENTS (continued)  
as at 30 September 2026 and for the three-month period then ended

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

Distributions from accumulated net profits of the joint ventures arising subsequent to the date of acquisition are recognised in the interim separate income statement. Distributions from sources other than from such profits are considered a recovery of investment and are deducted to the cost of the investment.

*Trading securities and investments in other entities*

Trading securities and investments in other entities are recognized at cost.

*Provision for investments*

Provision of the investment is made when there are reliable evidences of the diminution in value of those investments at the balance sheet date. Increases and decreases to the provision balance are recorded as finance expenses in the interim separate income statement.

Increase or decrease in the reserve balance shall be accounted into financial expenses in the report of the results of separate business activities in the middle of the year.

*Held-to-maturity investments*

Held-to-maturity investments are stated at their acquisition costs. After initial recognition, held-to-maturity investments are measured at recoverable amount. Any impairment loss incurred is recognised as finance expense in the interim separate income statement and deducted against the value of such investments.

**3.12 Payables and accruals**

Payables and accruals are recognised for amounts to be paid in the future for goods and services received, whether or not billed to the Company.

**3.13 Provisions**

*General*

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

When the Company expects some or all of a provision to be reimbursed, for example under an insurance contract, the reimbursement is recognised as a separate asset but only when the reimbursement is virtually certain. The expense relating to any provision is presented in the separate interim income statement net of any reimbursement.

If the effect of the time value of money is material, provisions are discounted using a current pre-tax rate that reflects, where appropriate, the risks specific to the liability. Where discounting is used, the increase in the provision due to the passage of time is recognised as a finance expense.

**3.14 Appropriation of net profits**

Net profit after tax is available for appropriation to shareholders after approval by the Annual General Meeting, and after making appropriation to reserve funds in accordance with the Charter of the Company and Vietnam's regulatory requirements.

NOTES TO THE INTERIM SEPARATE FINANCIAL STATEMENTS (continued)  
as at 30 September 2026 and for the three-month period then ended

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (continued)

The Company maintains the following reserve funds which are appropriated from the Company's net profit as proposed by the Board of Directors and subject to approval by shareholders at the Annual General Meeting.

*Investment and development fund*

This fund is set aside for use in the Company's expansion of its operation or of in-depth investment or to cover financial loss in the future.

*Bonus and welfare fund*

This fund is set aside for the purpose of pecuniary rewarding and encouraging, common benefits and improvement of the employees' benefits, and presented as a liability on the interim statement of financial position.

*Other fund*

Other funds are appropriated by the Company in accordance with resolutions passed by the General Meeting of Shareholders and are approved for use in supporting the Company's development objectives, including allocations designated for scientific research and technological development activities.

**3.15 Revenue recognition**

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured. Revenue is measured at the fair value of the consideration received or receivable, excluding trade discount, rebate and sales return. The following specific recognition criteria must also be met before revenue is recognised:

*Revenue from sale of inventory property*

Revenue from sale of inventory property is recognised when the significant risks and rewards incident to ownership of the properties have been transferred to the buyer.

*Rental income*

Rental income arising from operating leases is recognised in interim separate income statement on a straight-line basis over the terms of the lease.

*Rendering of services*

Revenue from rendering of services is recognised when the services have been provided to the customer.

*Interest*

Revenue is recognised as the interest accrues (taking into account the effective yield on the asset) unless collectability is in doubt.

*Dividends*

Income is recognised when the Company's entitlement as an investor to receive the dividends is established.

NOTES TO THE INTERIM SEPARATE FINANCIAL STATEMENTS (continued)  
as at 30 September 2026 and for the three-month period then ended

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)**

**3.16 Taxation**

*Current income tax*

Current income tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted as at the interim statement of financial position date.

Current income tax is charged or credited to the interim separate income statement, except when it relates to items recognised directly to equity, in which case the current income tax is also dealt with in equity.

Current income tax assets and liabilities are offset when there is a legally enforceable right for the Company to set off current tax assets against current tax liabilities and when the Company intends to settle its current tax assets and liabilities on a net basis.

*Deferred tax*

Deferred tax is provided using the liability method on temporary differences at the interim statement of financial position date between the tax base of assets and liabilities and their carrying amount in interim separate financial statements.

Deferred tax liabilities are recognised for all taxable temporary differences, except:

- ▶ where the deferred tax liability arises from the initial recognition of an asset or liability in a transaction which at the time of the related transaction affects neither the accounting profit nor taxable profit or loss; and
- ▶ in respect of taxable temporary differences associated with investments in subsidiaries and interests in joint ventures where timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred tax assets are recognised for all deductible temporary differences, carried forward unused tax credit and unused tax losses, to the extent that it is probable that taxable profit will be available against which deductible temporary differences, carried forward unused tax credit and unused tax losses can be utilised, except:

- ▶ where the deferred tax asset in respect of deductible temporary difference which arises from the initial recognition of an asset or liability which at the time of the related transaction, affects neither the accounting profit nor taxable profit or loss; and
- ▶ in respect of deductible temporary differences associated with investments in subsidiaries, associates, and interests in joint ventures, deferred tax assets are recognised only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilised.

The carrying amount of deferred tax assets is reviewed at each interim statement of financial position date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilised. Previously unrecognised deferred tax assets are re-assessed at each interim separate balance date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax assets to be recovered.

NOTES TO THE INTERIM SEPARATE FINANCIAL STATEMENTS (continued)  
as at 30 September 2026 and for the three-month period then ended

**3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES** (continued)

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the period when the asset realised or the liability is settled based on tax rates and tax laws that have been enacted at the interim statement of financial position date.

Deferred tax is charged or credited to the interim separate income statement, except when it relates to items recognised directly to equity, in which case the deferred tax is also dealt with in the equity account.

Deferred tax assets and liabilities are offset when there is a legally enforceable right for the Company to offset current tax assets against current tax liabilities and when they relate to income taxes levied by the same taxation authority on:

- either the same taxable entity; or
- when the Company intends either to settle current tax liabilities and assets on a net basis or to realise the assets and settle the liabilities simultaneously, in each future period in which significant amounts of deferred tax liabilities or assets are expected to be settled or recovered.

**3.17 Related parties**

Parties are considered to be related parties of the Company if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions, or when the Company and other party are under common control or under common significant influence. Related parties can be enterprise or individual, including close members of their families.

The investment properties include the commercial and service basements, parking areas, commercial and service floors, swimming pools and kindergarten areas of The Terra An Hung Project which are owned by the Company. In investment properties, the net carrying value of the basement of The Terra An Hung Project is VND 115.5 billion (original cost is VND 136.4 billion, accumulated depreciation is VND 20.9 billion) corresponding to the basement area of 10,236.60 m<sup>2</sup> which is owned by the Company. The Company did not include the construction cost of this basement into the cost of apartments in the Project.

As at 30 September 2026, the fair values of these investment properties have not been determined due to insufficient information for reliably evaluating the fair values.

NOTES TO THE INTERIM SEPARATE FINANCIAL STATEMENTS (continued)  
as at 30 September 2026 and for the three-month period then ended

**14. CAPITALISED BORROWING COSTS**

During the period, the Company capitalised borrowing costs with the amount of VND 12.04 billion for the three-month period ended 30 September 2026 (for the three-month period ended 30 September 2025: VND 8.3 billion). These costs are mainly related to specific borrowings obtained to finance the construction of certain real estate projects of the Company.

NOTES TO THE INTERIM SEPARATE FINANCIAL STATEMENTS (continued)  
as at 30 September 2026 and for the three-month period then ended

## 29. CORPORATE INCOME TAX

The current statutory corporate income tax ("CIT") rate applicable to the Company is 20%.

The tax returns filed by the Company is subject to examination by the tax authorities. As the application of tax laws and regulations is susceptible to varying interpretations, the amounts reported in the interim separate financial statements could be changed at a later date upon final determination by the tax authorities.

### 29.1 CIT expenses

### 29.2 Current tax

The current tax payable is based on taxable income for the current period. The taxable income of the Company for the period differs from the accounting profit as reported in the interim separate income statement because it excludes items of income or expense that are taxable or deductible in other periods and it further excludes items that are not taxable or deductible. The Company's liability for current tax is calculated using tax rates that have been enacted by the interim statement of financial position date.

### 29.3 Deferred tax

The following are the deferred tax assets and deferred tax liabilities recognised by the Company, and the movements thereon, during the current and previous period:

*Terms and conditions of transactions with related parties:*

During the period, the Company rendered and purchased services and lent to/borrowed from related parties based on contractual terms.

Except for borrowing and lendings, balances of receivables and payables as at 30 September 2026 are unsecured, interest free and will be settled in cash. For the three-month period ended 30 September 2026, the Company has not made any provision for doubtful debts relating to amounts owned by related parties (31 December 2025: nil). This assessment is undertaken each period through the examination of the financial position of the related parties and the market in which the related operate.
